

### Description of the rules and forms of practice:

In accordance with Annex 2 to the Regulation of the Minister of Science and Higher Education dated 17 July 2019 on the standard of training for the profession of a veterinarian, the apprenticeship should be assigned 15 ECTS credits. According to the aforementioned regulation, the scope of professional internships covers learning the practical aspects of medical and veterinary procedures on animal production farms, animal treatment facilities, slaughterhouses and animal products processing plants and animal feed production plants, as well as the field of insemination of animals.

Type of practice	Implementation period	Duration	
		Weeks	Hours
Breeding practice	after the 4th semester	2	80
Clinical Practice	after the 8th semester	4	160
Veterinary inspection Practice	after the 8th semester	2	80
Clinical Practice	after the 10th semester	4	160
Veterinary inspection Practice	after the 10th semester	2	80

Students make individual reports on the course of their internship in the form of an internship logbook, the contents of which are confirmed by the Internship Unit and are the basis for obtaining credit for the internship. Supervision of the implementation of the internship is carried out in the case of livestock internship by an employee of the Office of Practical and Continuing Education, and in the case of clinical internship and veterinary inspection by the Dean's representative for internships. There is a designated person in the unit conducting the internship who directly supervises the student. During the internship, a staff member from the Office of Practical and Continuing Education and the dean's attorney for internships stay in contact with the Unit offering internships to obtain information about the course of the internship.

The realisation of the Breeding Practice, Clinical Practice 1 and 2 and Veterinary Inspection Practice 1 and 2 is carried out in accordance with the breeding practice and clinical practice and veterinary inspection programme for students of the Faculty of Veterinary Medicine in Lublin and is completed with credits.

General rules of performing student practice are specified in the Regulations of National Student Internships at the University of Life Sciences in Lublin.

In accordance with **the Resolution No. 27/14/VI** of the Polish National Veterinary Chamber "On determining the amount of fees for practical training of students of secondary schools and practical training of students of faculties of veterinary medicine within the scope

resulting from the curriculum" the fee for practical training of a veterinary student is PLN 32.00 per day.
