

Workshop on

Academic Writing and Publication

HOW TO PREPARE AND PUBLISH PAPERS IN HIGH IMPACT JOURNALS

*Training-course, 5th March 2021
University of Life Sciences in Lublin, Poland*

AIMS

Academic writing is an integral process of research and generation of scientific knowledge. The research scholars usually lack in the ability to prepare research reports and dissertations in a systematic manner and publish research papers in reputed journals owing to lack of adequate training in the research methodology, critical thinking and academic writing skills.

The workshop is designed for young scholars, e.g. Ph.D. students and postdocs who would like to improve their academic writing skills in order to succeed in studies and in career. This workshop will be conducted by experts with excellent writing and publication experience in high impact journals and journal editors. The essentials of the academic writing and submission process will be introduced in this workshop. Moreover, this workshop will also teach you how to correctly prepare your figures and graphical abstract as one of the new requirements for submission.

LANGUAGE

Teaching will be in English

TARGET GROUP

The target group for the course is young researchers and students with ambitions in their academic career – max 100 persons.

TEACHING CONTENT

To explain the key elements and identify the foundation of academic writing; To gain an appreciation of what quality means in the context of academic writing with creative, meaningful and attractive story; To write clear, well-structured academic texts of some length, with a high degree of grammatical accuracy and in an appropriate style; To explain the correct way to prepare your figures and advance them with better visual effect.

LECTURER

Dr. Shubiao Wu, Associate Professor in Aarhus University, Denmark. Dr. Wu has dedicated to exploring efficient natural-based solutions for wastewater treatment and approaches promoting nutrients recycling from wastewater to agriculture. He has a great research interest in biogeochemical interactions of various pollutants degradation pathways in wetland and soil systems. Dr. Wu has published >100 peer-reviewed journal articles and about 50% of those in reputed journals with impact factor > 5.0. He received several academic awards on education and technology innovations. He was also awarded Marie Skłodowska-Curie Co-founded fellowship from EU and Humboldt Experienced Researchers Fellowship from Germany. In this workshop, Dr. Wu will share his special expertise on graphics preparation.

REGISTRATION

You can register for the workshop until 31st January 2021 via the link – registration form:
