

# Erasmus Brazil

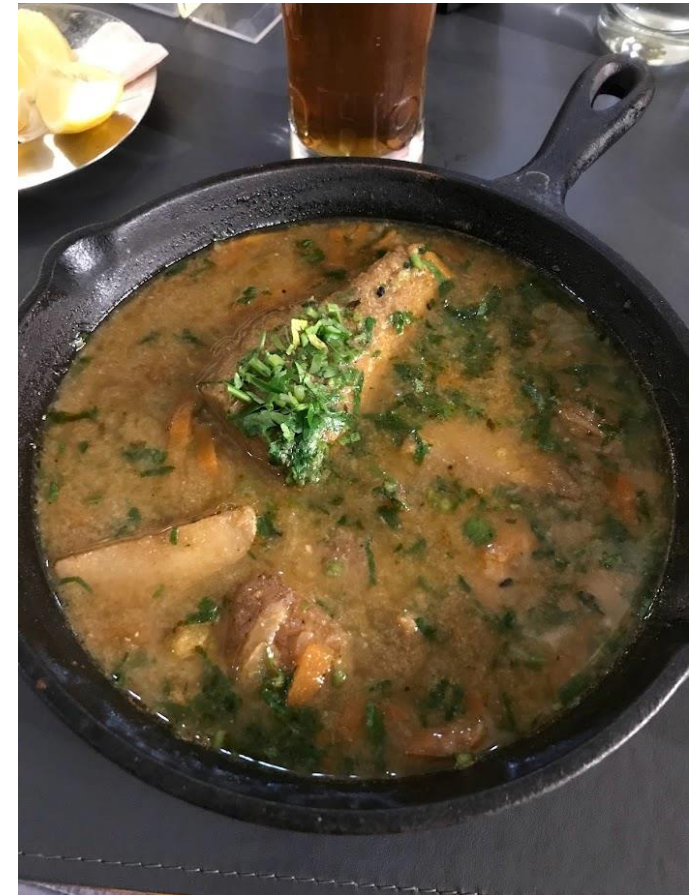

Matteo Russo

# Why Brazil?

- Amazing people
- High quality of veterinary
- Beautiful landscapes
- Different culture

- Good food
- Open minded mentality

# What you can do in Brazil?

- Visiting beautiful places
- Going to the beach
- Going for a trekking
- Practicing with a lot of different animals
- Knowing about diseases you cannot meet in Europe

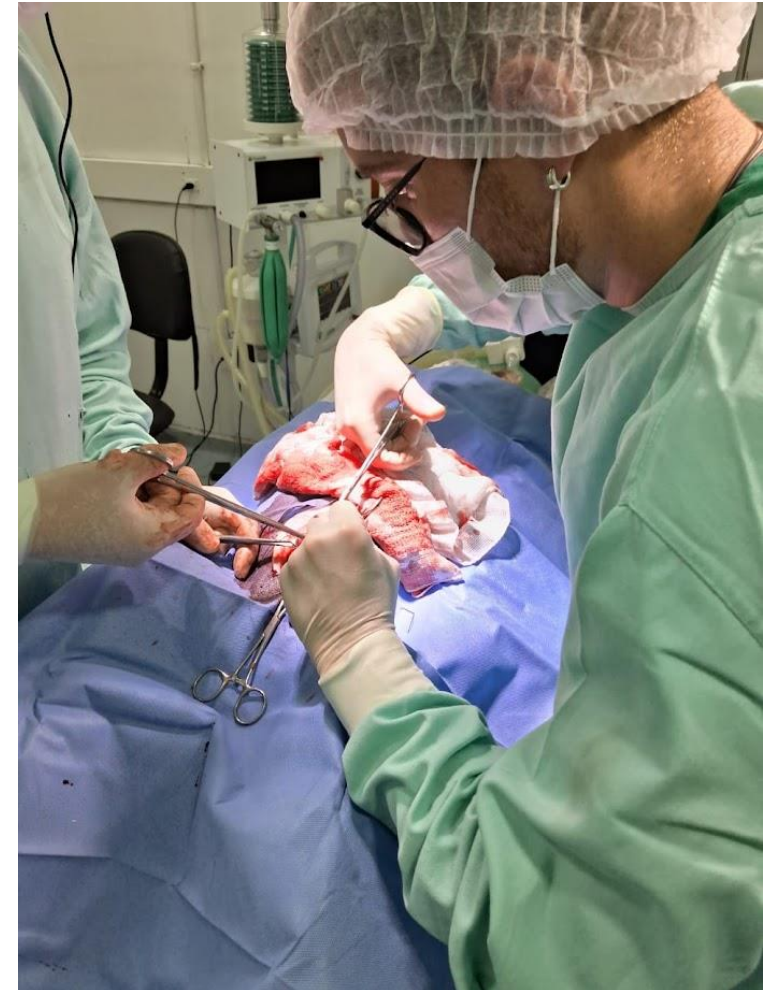

# Do I have to be careful in Brazil?

- Yes, Brazil in general is not a safe country.
- Generally big cities are dangerous.
- There are some exceptions, like the city where I have made my Erasmus (Florianopolis).
- It is a very safe city with european standards.

# What can I say about my experience?

- It has been an amazing experience.
- I have learnt a lot from both a professional and a personal point of view.
- Visiting a country on the other side of the world, while practicing what I like, made me a better person, it opened my mind on what is going on out of my garden and made me a better practitioner.

Thank you
