

INTERNATIONAL CONFERENCE
OF SOIL AND AGRICULTURE
ICSA 2024

JUNE 11-13, 2024
LUBLIN – NAŁĘCZÓW
POLAND

CONFERENCE SCHEDULE

TUESDAY – 11.06.2024 (University of Life Sciences in Lublin, Congress Centre)

– register your attendance between 8.00 – 10.30

9:00 – 9:45	Inaugural Insights: Embarking on the ICSA 2024 Scientific Journey & Rector's Reverie		
		Carsten Paul - <i>Challenges of unlocking soils' potential for climate change mitigation</i>	9:45 – 10:10
9:45 – 11:25	Ideas in Focus: Keynote Visions and Voices	Örjan Berglund - <i>GHG emissions from cultivated peat soils in Sweden</i>	10:10 – 10:35
		Caroline De Clerck - <i>Towards a better understanding of the influence of ecology-based farming practices on soil biological properties along a rural-urban transect</i>	10:35 – 11:00
		Expert Panel – discussion	11:00 – 11:25
11:25 – 11:55	Coffee Break		
11:55 – 13:15	Soil Health and Fertility & Crop Sciences and Agronomy - parallel session (part I)		
13:15 – 14:15	Lunch Break		
14:15 – 15:00	Scientific Snapshots: Capturing Breakthroughs - poster session		
15:00 – 16:30	Soil Health and Fertility & Crop Sciences and Agronomy - parallel session (part II) & Discussion Panel summarizing Emerged ICSA Focal Points		
16:30 – 17:00	Coffee break		
17:00 – 18:00	Voyage to the Venue - Traveling to the Conference Hub in Nałęczów		
18:00 – 19:30	Hotel lodging (Training and Recreation Center "Energetyk", Nałęczów)		
20.00	Gala Dinner		

WEDNESDAY – 12.06.2024 (Nałęczów, Kazimierz Dolny)

8:00 – 09:20	Breakfast		
9:20 – 11:15	Sustainable Development and Climate Changes & Soil and Plant Interaction – parallel session		
11:15 – 11:45	Coffee Break		
11:45 – 13:45	Soil Analysis and Modelling & Soil and Agriculture Policy and Economics – parallel session		
13:45 – 14:30	Lunch Break		
15:00 – 18:30	Eclectic Excursion: Roaming Kazimierz Dolny Idyllic Landscapes – group outing		
20:00	Barbeque Dinner		

THURSDAY – 13.06.2024

8:00 – 09:30	Breakfast & Hotel check-out		
9:30 – 13:00	Pedological Secrets of the Region - excursions		
13:00 – 14:00	Dinner		
15:00	Back in Lublin		

TOWARDS SOIL SUSTAINABILITY

TUESDAY – 11.06.2024 (University of Life Sciences in Lublin, Congress Centre)	11:15 – 13:10	Soil Health and Fertility & Crop Sciences and Agronomy - parallel session (part I & II)
	15:00 – 15:55	
	11:55	Anna Karczewska - <i>Emerging contaminants in soils – trendy trifles or a real threat?</i>
	12:10	Jerzy Jonczak - <i>Long-term effects of crop rotation and fertilisation on soil organic matter quality in sandy soils under temperate climatic conditions</i>
	12:25	Abiodun Ojo Olakayode - <i>Effects of cured and charred poultry manure on soil hydraulic and chemical properties of a maize farm in Ile Ife, Nigeria</i>
	12:40	Jince Mary M Joy - <i>Resilience through diversification</i>
	12:55	Agnieszka Sołtys - <i>Soil subhorizon-Ofh (organic fermentative-humic) as a ‘natural sponge’ of selected trace elements</i>

	15:00	Krystyna Ciarkowska - <i>Storage of persistent organic matter in gypsum soils under temperate climatic conditions</i>
	15:15	Jurgita Cesevičienė - <i>Soil mobile organic carbon as affected by winter wheat strip tillage and forage legume intercropping</i>
15:30	Sara Alcalde-Aparicio - <i>K and Mg in soil clay reservoirs: short seasonal responses in the soil solution composition and implications for actual fertility</i>	
15:45	Take home message – summary & transition towards ICSA Focal Points	
WEDNESDAY – 12.06.2024 (Nałęczów, Kazimierz Dolny)	9:20 – 11:15	Sustainable Development and Climate Changes & Soil and Plant Interaction – parallel session
	9:20	Maira Kussainova - <i>Measurement of greenhouse gas flux from Kazakhstan agricultural soils using static chambers</i>
	9:35	Iyiola Egbebi - <i>Ground Water Usage and Soil Pollution Control: Challenges and Solutions for Environmental Sustainability</i>
	9:50	Barbara Sowińska Świerkosz - <i>Nature-based solutions (NBS) as a tool of sustainable development of cities</i>
	10:05	Maria Niaz - <i>Pedometric mapping and satellite remote sensing based prediction of potassium content in apple producing region of District Swat</i>
	10:20	Sebastian Kuśmierz - <i>GHG and ammonia emissions mitigation through improved soil organic matter stabilization</i>
	10:35	Kabiru Alani Shittu - <i>Effects of different tillage practices and soil ammendment on soil strength and yield of Okra</i>
	10:50	Alvyra Slepetiene & Aida Skersiene - <i>Assessment of SOC and WEOC stocks in the soil under different compositions of swards and fallow</i>
11:05	Take home message – summary	
WEDNESDAY – 12.06.2024 (Nałęczów, Kazimierz Dolny)	11:45 – 13:45	Soil Analysis and Modelling & Soil and Agriculture Policy and Economics – parallel session
	11:45	Aleksandra Badora - <i>Innovative production and innovative agricultural products in the food economy, in the context of selected elements of the lifestyle of residents of south-eastern Poland</i>
	12:00	Kinga Milewska - <i>Pedodiversity of moraine plateaus in Northern Poland: application of low-altitude photogrammetry in soil science</i>
	12:15	Marcin Świtoniak - <i>Existing cartographic materials and remote sensing data in creating a genetic map of the soil cover of Wielka Żuława Island</i>
	12:30	Oluwatosin Egbebi - <i>Digital Mapping of Exchangeable Cations in a Tropical Soils of Southwestern Nigeria</i>
	12:45	Olha Aleksandrova - <i>Implementation of soil friendly practices: WTA analysis in 6 European countries</i>
	13:00	K+S – <i>Minerały wspomagające żyzność i produktywność gleby wg. Technologii nawożenia K+S Polska (presented in Polish)</i>
	13:35	Take home message – summary
