

Co-funded by  
the European Union

In the week 03 -11 October 2024 we had a great opportunity to benefit from Erasmus + Staff mobility program to;

- ✓ Exchange didactic and research used methodologies
- ✓ Build fruitful research networks in the field of conservation genetics and biodiversity
- ✓ Strengthen the partnership Tirana University, Albania and University of Life Sciences in Lublin

**Collaborators**

Dr. Magdalena Sozoniuk  
Prof. Asoc. Aida Dervishi  
Dr. Dhimiter Peci

**Future cooperation**

- ✓ Joined research projects and publications.
- ✓ Co-mentoring master thesis from which students would benefit in long term

The highly motivating and inspired atmosphere helped to dive deep into threats and factors affecting plant species conservation status
