STER PROGRAMME

Crucial element of the internationalization process are actions planned to be conducted as a part of the project:

"Actions towards the internationalization of the Doctoral School of the University of Life Sciences in Lublin (I-SDUPL)" financed by the STER NAWA program. Project implementation period is from 2024-01-01 to 2026-12-31 and includes the following actions:

- Scholarships for foreign PhD students recruiting to the Doctoral School of ULS,
- Foreign long-term mobility for PhD students (from 1 to 6 months),
- Foreign mobility for management, administrative and academic staff of the Doctoral School of ULS
- On-line meeting with foreign PhD students candidates and prospective supervisors from foreign research centres,
- "School of Excellence" – stationary lectures for PhD students given by professors from abroad,
- Workshops on soft skills conducted in English by Polish and foreign trainers.

One of the event supported by I-SDUPL project will be an annual organization of the **International PhD Students' Conference: Environment-Plant-Animal-Product together with the International Workshops at the University of Life Sciences in Lublin, Poland,** which will be held in April 2024, 2025 and 2025:

About us

The Doctoral School of the University of Life Sciences in Lublin (Doctoral School of ULS) provides 4-years education program. We are currently educating about 80 PhD students. We offer:

- interdisciplinary education path aimed at gaining practical knowledge necessary for young scientists including modules such as writing scientific papers and applying for research grants,

- advanced specialized scientific path which is undertaken in collaboration with PhD thesis supervisors and the purpose of it is to implement individual research plans in institutes and departments.

Except of the traditional path of education, PhD students have the opportunity to complete the Implementation Doctorate program or conduct research as part of projects financed from external sources.

Scientific disciplines

The Doctoral School of the University of Life Sciences in Lublin offers education in seven academic disciplines:

- Agriculture and horticulture
- Food technology and human nutrition
- Veterinary medicine
- Animal sciences and fisheries
- Mechanical engineering
- Environmental engineering, mining and power engineering
- Biological sciences

Internationalization process

In the aim to improve the quality of education and research conducted by PhD students, Doctoral School of ULS:

- Realize "Visiting professor" program aiming at conducting classes by recognizable scientists from abroad.

- Support the participation of PhD students in foreign internships.

- Co-finances scientific research conducted by PhD students.

- Organize periodic "International PhD Student's Conference at the University of Life Sciences in Lublin, Poland: ENVIRONMENT-PLANT-ANIMAL-PRODUCT (ICDSUPL)".

- Organize international seminars, workshops and field visits.
