# Where we were?

**WE WENT TO A SMALL ANIMAL HOSPITAL IN BARCELONA FOR A TWO-WEEK INTERNSHIP. THE INTERNSHIP TOOK PLACE IN THE DIAGNOSTIC IMAGING DEPARTMENT**

09.12.2024-22.12.2024 R

Internships started from 9am, Monday to Friday. Our patients were dogs and cats. All day long we performed ultrasound, X-ray and sometimes even CT

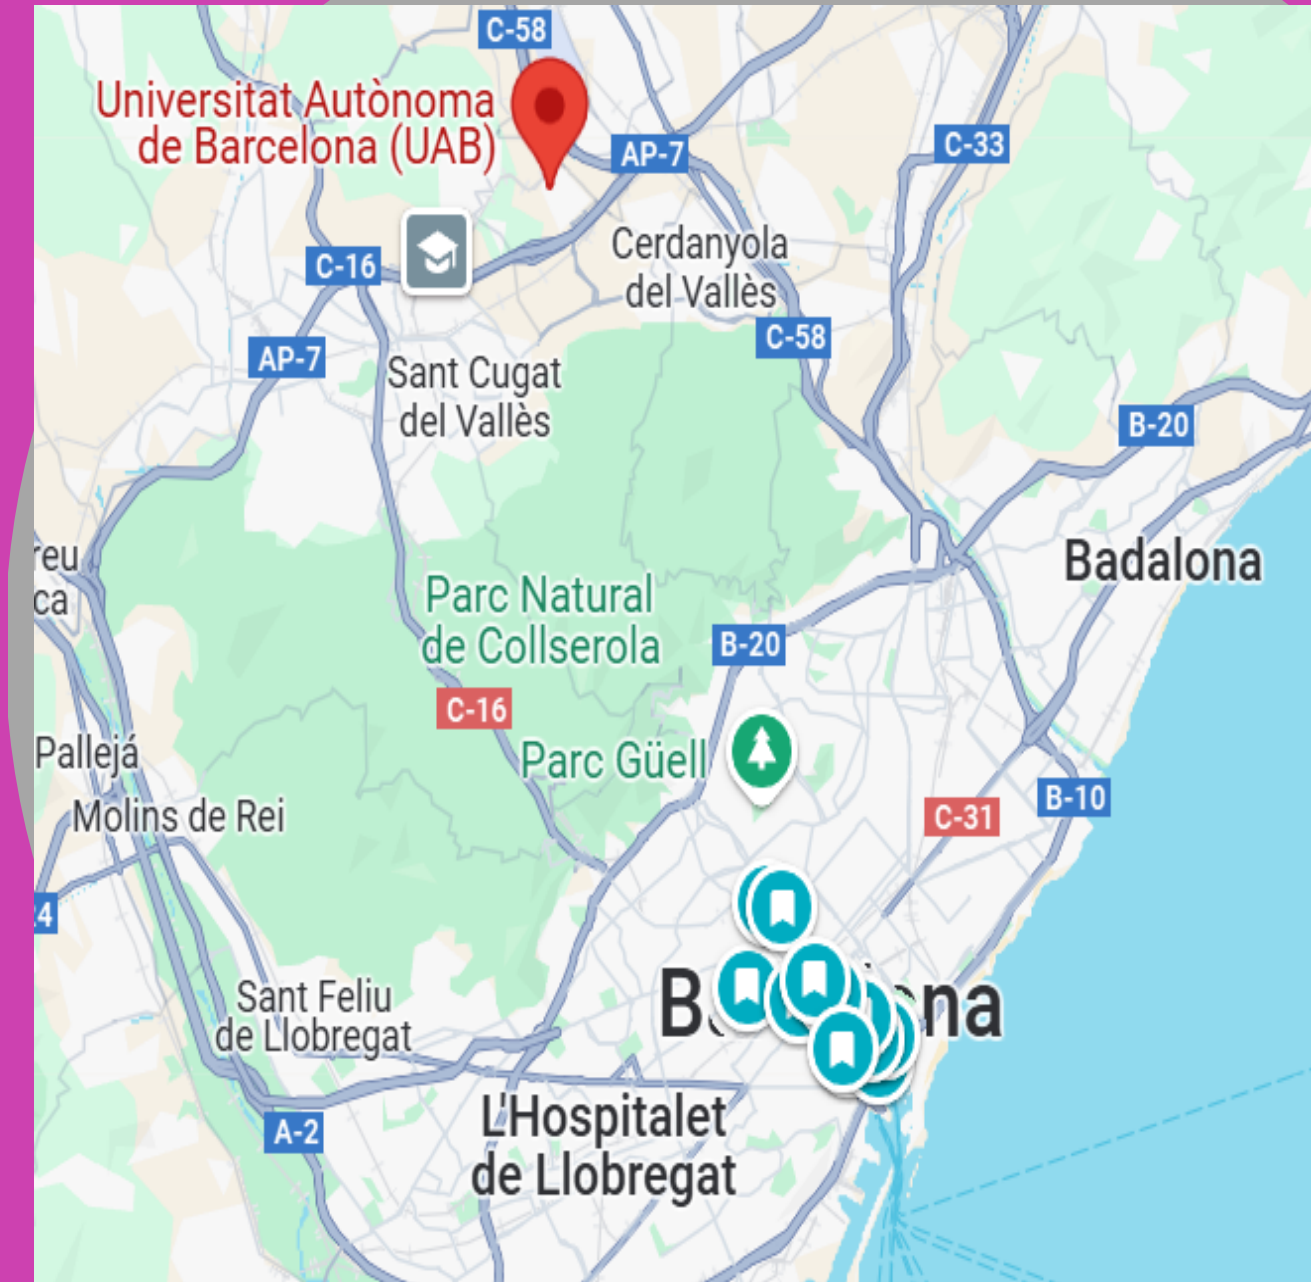

# ACCOMODATION

The hospital is on the outskirts of Barcelona. This makes it possible to find cheaper accommodation.

The disadvantages are the distance from the centre (public transport is good) and fewer rooms to rent than in the centre.

We found the flat on Airbnb.com

**BARCELONA IS ALSO A VERY TOURISTY PLACE, SO YOU WON'T BE BORED, MONUMENTS AND ATTRACTIONS ARE ON EVERY STREET. THIS CITY OFFERS US THE SEA, MOUNTAINS, MUSEUMS AND A CENTRE THAT NEVER SLEEP.**

**THE DOWNSIDE IS THE HIGH PRICES.**

THE UNIVERSITY'S VETERINARY CLINIC IS LARGE AND WELL EQUIPPED. FROM DAY ONE WE WERE WARMLY WELCOMED INTO THE TEAM OF VETS. THE STAFF SPEAK ENGLISH ( ONE BETTER THE OTHER WORSE), THERE WAS NO LANGUAGE BARRIER.

WE HIGHLY RECOMMEND THIS PLACE 😊
