/Veterinary Physician (DVM)

Duration: 11 semesters

Accreditation: European Association of Establishments
for Veterinary Education (EAEVE)

Tuition fee | Admission fee - please contact us for more details

Why is it worth studying Veterinary Medicine at ULSL?

- Long tradition of excellence in research and teaching, highly qualified Staff, modern facilities, equipment and campus.
- Diploma recognized within European Union.
- Curriculum starts with basic subjects such as anatomy, biochemistry, physiology. Later on students get acquainted with hygiene of animal source food, elements of husbandry and nutrition. Clinical subjects are offered together with obligatory clinical practice.
- At ULSL we integrate hands-on clinical practice with modern teaching methods. The system of practical professional training in private clinics, meat plants, milk plants and sanitary-veterinary inspection units strengthens an educational process.
- Students participate actively in diagnosis and treatment of clinical cases. University clinics have a total of 8 surgical theatres: for small animals, farm animals, ophthalmic and dental.

Accreditation of European Association of Establishments for Veterinary Education

The Veterinary Medicine Faculty of University of Life Sciences in Lublin received a decision on granting accreditation from the European Association of Veterinary Medicine Faculties (EAEVE). Thus, the high quality of education in the field of veterinary medicine has been confirmed. The granted form of accreditation is valid until 2028. The Faculty received European accreditation for the third time, the first time it was in 2005.

The Clinical Skills Laboratory of Veterinary Medicine Faculty

Phantoms of large animals on a scale of 1: 1, models for training the application of dressings or intravenous injections, innovative applications for virtual reality are just some of the modern teaching materials in The Clinical Skills Laboratory of Veterinary Medicine Faculty.

The laboratory equipped with real phantoms of animals will allow students, and future veterinarians, to practice key skills in their profession.

It is worth noting that it is also **the first centralized veterinary laboratory in Poland**, where students have the opportunity to train clinical skills on phantoms and models not only during regular classes provided for in the study program, but also individually in their free time.

How to apply?

1. Register in the Admission System on our website (registration will open in March).

- Every candidate is required to present a transcript of records – a grade sheet – showing the academic achievements at school (subjects, grades, credits). A secondary school transcript may be called “testimonial” in some countries. Candidate should include an explanation of how the grading system works in the country the certificate(s) come from (ie. which grades are the best, and which are the poorest) e.g. 6 – excellent, 5- very good, etc. The transcript of academic records should be legalized (or bear an Apostille). The secondary school transcript (if on a separate sheet) should also be legalized or have the Apostille.
- Please be aware that your certificates, diplomas, and transcripts, will have to bear the stamp of legalization from the Polish Embassy of the country where the certificate, diploma or transcript was issued (except if the documents were issued in the country which is a part of the Hague Convention – then Apostille is needed). You may also be asked to provide an eligibility statement for your credentials, issued by appropriate educational authorities or consular office. Master degree course applicants have to submit their Bachelor diploma and Academic Transcript of Records (originals or copies authenticated by a notary public and, if applicable, a certified translation to English).

When you apply to Veterinary Medicine programme, provide grade from the Certificate of Matriculation, Baccalaureate etc. in the compulsory subject of biology and the subject of your choice: chemistry, mathematics or physics. Knowledge of English must be confirmed by a certificate, e.g. FCE, CAE, TOEIC, TOEFL, TELC, if the secondary school education was conducted in a language other than English.

- Scan of the secondary school certificate authorizing the candidate to enter the university in the country of issuance.
- Scan/Copy of Passport (page with personal data, address and photo).
- Scan/Copy of certificate confirming knowledge of English language (minimum B2 level), if secondary school education is in other than English language.
- Health Certificate (downloaded from the ULSL website) confirming that candidate is eligible for the chosen programme. The documents must be submitted in English or translated into English by a sworn translator.

2. Pay the admission fee. Each candidate has their own individual account number.

3. Wait until the enrollment ends in June. If your status changes to “qualified”, we will send you documents confirming that you have been accepted.

If you do not receive your high school graduation documents, certificates etc. by the end of June, you will be able to register and apply in second enrollment round that will run until the middle September. Please note that your application will be considered only when you submit all the documents together with the proof of admission fee payment.

4. You will be informed via email about your application status.

5. Pay the tuition fee for one academic year (or one semester).

6. Wait for the documents that are necessary to apply for a Visa. – The Final Acceptance Letter – The Recommendation Letter to the Polish Embassy – The Certificate of Enrollment.

7. You made it! Nice to see you as one of our students!
